ACTI 16A 6000A/10KA 3-pole automatic circuit breaker with minimum protection

Brand: SCHNEIDER

Reference: IMPO A9P54716

The ACTI 14 IC40N 3PN C 16A 6000A/10KA MINIA is a high-capacity circuit breaker designed to protect electrical circuits. Its 3-pole configuration and technical features ensure efficient and safe performance in a variety of electrical applications.

Description

The ACTI 14 IC40N 3PN C 16A 6000A/10KA MINIA is an electrical protection device designed to ensure safety and efficiency in electrical installations. This circuit breaker is ideal for industrial and commercial applications, providing a fast response to overloads and short circuits. Its robust construction and 10 kA breaking capacity ensure reliable performance under demanding conditions, while its compact design facilitates installation in confined spaces.

- **Type:** Circuit breaker
- **Model:** ACTI 14 IC40N
- **Phases:** 3PN (three-phase)
- **Rated current:** 16A
- **Breaking capacity:** 6000A/10kA
- **Protection:** Overload and short circuit
- **Installation:** DIN rail mounting
- **Standards:** Complies with international safety standards
- **Dimensions:** Compact for easy integration into electrical panels
- **Applications:** Ideal for industrial and commercial environments

Specifications

Rated current (A)	16
Curve	C
EAN	3606481326140
No. of poles	3P+N
Reference	SCHNEIDER A9P54716
