

Product sheet

PowerTag NSX 250 A 4P switch with smart connectivity and advanced protection.

Brand: SCHNEIDER

Reference: IMPO LV434021

The PowerTag NSX 4P 250 A is a high-capacity circuit breaker designed to protect electrical circuits. Its advanced technology allows for efficient monitoring and optimal energy management, ensuring safety and reliability in electrical installations.

Description

The PowerTag NSX 4P 250 A is an electrical protection and control device designed for industrial and commercial applications requiring efficient energy management. This low-voltage circuit breaker combines advanced technology with a compact design, enabling precise monitoring of energy consumption and protection of electrical circuits. Its 250 A capacity makes it an ideal solution for environments with high electrical demand, guaranteeing the safety and reliability of electrical equipment operation.

- **Type:** Low-voltage circuit breaker
- **Poles:** 4P (four poles)
- **Rated current:** 250 A
- **Rated voltage:** 400 V AC
- **Protection:** Overload and short circuit
- **Connectivity:** Integration with energy management systems
- **Dimensions:** Compact, optimized for small spaces
- **Installation:** Easy mounting on electrical panels
- **Standards:** Complies with international safety standards
- **Applications:** Ideal for industries and buildings commercial and electrical distribution systems

Specifications

Rated current (A)	250
EAN	3606485467023
No. of poles	3P+N
Reference	SCHNEIDER LV434021
