

Product sheet

ACTI9 2-pole 25A 30mA type B differential switch for electrical protection.

Brand: SCHNEIDER

Reference: IMPO A9Z51225

The Acti9 - lid 2P 25A 30mA B EV is an electrical protection device designed for electric vehicle installations. It offers a nominal current of 25A and a sensitivity of 30mA, ensuring safety and efficiency in the electrical supply.

Description

The Acti9 - lid 2P 25A 30mA B EV is a protective device designed to ensure safety in electrical installations, especially in electric vehicle charging applications. This 2-pole residual current circuit breaker (RCCB) offers a rated current of 25 amps and a sensitivity of 30 mA, making it an ideal choice for protecting both people and electrical equipment from potential earth faults. Its compact and efficient design allows for easy integration into electrical panels, ensuring optimal performance and a rapid response to any current anomaly.

- **Type:** Residual Current Circuit Breaker (RCCB)
- **Poles:** 2P (two poles)
- **Rated Current:** 25A
- **Leakage Current:** 30mA
- **Application:** Electric Vehicle (EV) Charging
- **Protection:** Against indirect contact and overloads
- **Standards:** Complies with current electrical safety regulations
- **Dimensions:** Compact for easy installation
- **Operating Temperature:** Wide range for various environmental conditions
- **Certifications:** Certified by electrical safety agencies

Specifications

Rated current (A)	25
Sensitivity	30 mA
EAN	3606489502782
No. of poles	2P
Reference	SCHNEIDER A9Z51225
