Description

The INT.HORARIO PROGRAM. IHP+ 1CANAL 2.5 MOD is a timer control device designed to optimize the management of electrical systems in residential and industrial environments. This programmer allows the automation of the activation and deactivation of electrical devices, facilitating efficient energy use and contributing to the reduction of operating costs. Its compact and functional design adapts to various installations, guaranteeing reliable and long-lasting performance.

- **Channels:** 1 control channel
- **Load capacity:** 2.5 kW
- **Programming:** Programmable schedule for efficient management
- **Installation type:** Surface mount
- **Dimensions:** Compact, ideal for small spaces
- **Operating voltage:** Compatible with 230V systems
- **Interface:** Easy to use with intuitive programming buttons
- **Material:** Manufactured from high-quality materials for durability
- **Safety:** Overload and short-circuit protection
- **Applications:** Ideal for lighting, heating, and other devices electrics
