Product sheet

SCHNEIDER TA10 100A 400V 3 pole rotary switch, 100A frame.

Brand: SCHNEIDER

Reference: IMPO TA10D3S1004TPE

The TA10 is a 100A, 400V rotary switch designed for three-phase systems. Its robust and efficient construction allows for safe and reliable operation in industrial applications. Ideal for controlling power distribution in demanding environments.

Description

The TA10 is a high-quality rotary switch designed for industrial applications requiring efficient electrical power control. With a 100A capacity and a 400V voltage rating, this 3-pole device ensures reliable and safe performance in demanding environments. Its robust construction and ergonomic design allow for easy operation and maintenance, making it an ideal choice for large-scale electrical installations. The 100A frame provides a solid base for mounting, ensuring the product's stability and durability under various working conditions.

- **Model:** TA10
- **Rated Current:** 100A
- **Rated Voltage:** 400V
- **Type:** Rotary Switch
- **Configuration:** 3-pole
- **Frame:** 100A
- **Material:** Robust construction for industrial environments
- **Installation:** Simple and secure mounting
- **Applications:** Ideal for large-scale electrical installations
- **Ergonomics:** Design that facilitates operation and maintenance

Specifications

Rated current (A)	100
EAN	3606481065742
No. of poles	3P
Reference	SCHNEIDER TA10D3S1004TPE
Nominal voltage (V)	380V
