

Product sheet

iPRD 40R 40 KA 350V 3 pole + neutral switch with high breaking capacity.

Brand: SCHNEIDER

Reference: IMPO A9L40601

The iPRD 40r 40 KA 350V 3P+N is an electrical protection device designed for three-phase systems. It offers a breaking capacity of 40 kA and operates at 350V, ensuring safety and reliability in electrical installations.

Description

The iPRD 40r 40 KA 350V 3P+N is an electrical protection device designed to safeguard electrical circuits in industrial and commercial installations. This device is characterized by its high breaking capacity, which allows for the effective management of overloads and short circuits, guaranteeing the safety and continuity of the power supply. Its compact and robust design facilitates installation in various environments, while its advanced technology ensures reliable and long-lasting performance. This product is ideal for applications requiring effective and rapid protection against electrical faults.

- **Model:** iPRD 40r
- **Breaking capacity:** 40 kA
- **Nominal voltage:** 350V
- **Poles:** 3P+N (three phases plus neutral)
- **Protection type:** Overload and short circuit
- **Installation:** DIN rail mounting
- **Dimensions:** Compact to optimize space
- **Material:** Impact-resistant housing
- **Standards:** Complies with international safety standards
- **Applications:** Ideal for industrial and commercial environments

Specifications

Curve	K
EAN	3606480506345
No. of poles	3P+N
Reference	SCHNEIDER A9L40601
Nominal voltage (V)	350
