

Product sheet

SCHNEIDER 230VAC, 16A, 50Hz hour meter, weekly and daily programming.

Brand: SCHNEIDER

Reference: IMPO XB5DSM

The 230VAC hour meter measures the operating time of electrical devices. Its compact design facilitates installation in various environments. Ideal for industrial and domestic applications, it offers accuracy and reliability in monitoring energy usage.

Description

The 230VAC Time Counter is a device designed for the efficient control and management of operating time for electrical equipment. This counter accurately records operating time in hours and minutes, facilitating maintenance planning and optimizing energy use. Its compact and robust design makes it ideal for installation in industrial and commercial environments, where monitoring uptime is essential for resource management and reducing operating costs.

- **Supply Voltage:** 230VAC
- **Measurement Range:** Up to 9999 hours and 59 minutes
- **Accuracy:** $\pm 1\%$ under normal operating conditions
- **Mounting Type:** Panel or surface
- **Dimensions:** 72 x 36 mm
- **Operating Temperature:** -10°C to 50°C
- **Housing Material:** Impact-resistant plastic
- **Connections:** Screw terminals for easy installation
- **Certifications:** CE, RoHS
- **Recommended use:** Industrial equipment, lighting systems, machinery

Specifications

Rated current (A)	16
