Product sheet

TA10 SCHNEIDER 40A 400VAC 4 pole rotary switch for automatic control.

Brand: SCHNEIDER

Reference: IMPO TA10D4S0404TPE

The TA10 Automatic 40A 400VAC 4P Rotary is a 40-amp circuit breaker designed for 400-volt electrical systems. Its four-pole configuration allows for efficient and safe connection, ideal for industrial and commercial applications.

Description

The TA10 Automatic 40A 400VAC 4P Rotary is a high-quality circuit breaker designed for industrial and commercial applications requiring efficient electrical power control. This device features a rotary design that allows for easy operation and safe handling, ensuring the protection of electrical circuits in demanding environments. Its 40-amp capacity and 400VAC nominal voltage make it an ideal solution for managing electrical loads in machinery and electrical equipment. Furthermore, its robust construction ensures a long service life and reliable performance under diverse working conditions.

- **Type:** Rotary circuit breaker
- **Capacity:** 40A
- **Rated voltage:** 400VAC
- **Poles:** 4P (four poles)
- **Material:** Durable plastic and high-quality metal components
- **Dimensions:** Compact for easy installation
- **Operating temperature:** Wide range for diverse environmental conditions
- **Certifications:** Complies with international safety standards
- **Applications:** Ideal for industrial machinery, electrical distribution systems, and more
- **Installation:** Easy mounting on electrical panels

Specifications

Rated current (A)	40
EAN	3606481065766
No. of poles	4P
Reference	SCHNEIDER TA10D4S0404TPE
