

Product sheet

DISY 4-pole 6.3A 230V circuit breaker with overload protection.

Brand: SCHNEIDER

Reference: IMPO GV2RT10

The DISY 4-6.3A circuit breaker provides overload and short-circuit protection for electrical installations. Its compact design facilitates installation in electrical panels, ensuring safe and efficient operation in various applications. Ideal for residential and industrial use.

Description

The DISY 4-6.3A Miniature Circuit Breaker is an electrical protection device designed to safeguard circuits and equipment against overloads and short circuits. Its advanced technology combines thermal and magnetic protection, ensuring a rapid response to electrical faults. This circuit breaker is ideal for residential and industrial applications, providing a reliable and efficient energy management solution. Its compact design allows for easy installation in electrical panels, optimizing space and improving the organization of the electrical system.

- **Type:** Circuit breaker
- **Rated current:** 4-6.3A
- **Protection:** Against overloads and short circuits
- **Installation:** Easy DIN rail mounting
- **Dimensions:** Compact to optimize space
- **Material:** High-strength housing
- **Standards:** Complies with international safety standards
- **Operating temperature:** Wide range for diverse environmental conditions
- **Lifespan:** Long life with minimal maintenance
- **Applications:** Residential and industrial

Specifications

Rated current (A)	6
EAN	3389110520651
No. of poles	4P
Reference	SCHNEIDER GV2RT10
Nominal voltage (V)	230V
