Description

The IHP+ Programming Key is an advanced tool designed to facilitate the configuration and control of electronic devices in industrial and commercial environments. Its ergonomic design and intuitive interface allow users to efficiently program and adjust operating parameters. This key is compatible with a wide range of devices, making it a versatile solution for various applications. Thanks to its cutting-edge technology, the IHP+ guarantees seamless and precise communication between the user and the equipment, thus optimizing the performance and functionality of connected systems.

- **Compatibility:** Works with multiple electronic devices.
- **Interface:** Intuitive and easy-to-use design.
- **Connectivity:** Stable and fast communication.
- **Ergonomics:** Design that facilitates prolonged handling.
- **Programming:** Allows precise parameter adjustments.
- **Durability:** Manufactured with high-quality materials.
- **Portability:** Lightweight and easy to transport.
- **Power:** Operates on long-life batteries.
- **Updates:** Supports software updates.
- **Safety:** Includes overload protection measures.

Specifications

EAN	3303431063734
Reference	SCHNEIDER CCT15861
Series	Solera Mural
