Product sheet

iPRD 65R 65 KA 350V 3 pole + neutral automatic switch.

Brand: SCHNEIDER

Reference: IMPO A9L65601

The iPRD 65r 65 KA 350V 3P+N is an electrical protection device designed for three-phase systems. It offers a breaking capacity of 65 kA and operates at 350V, ensuring safety and reliability in electrical installations.

Description

The iPRD 65r 65 KA 350V 3P+N is an electrical protection device designed to ensure safety and efficiency in electrical installations. This device is characterized by its robustness and reliability, offering an effective solution for overload and short-circuit protection in three-phase systems. Its compact design allows for easy integration into electrical panels, while its 65 kA breaking capacity ensures optimal performance under high-demand conditions. This product is ideal for industrial and commercial applications where continuity of electrical service is critical.

- **Model:** iPRD 65r
- **Interrupting capacity:** 65 kA
- **Nominal voltage:** 350V
- **Phases:** 3P+N (three-phase plus neutral)
- **Protection type:** Overcurrent and short circuit
- **Standards:** Complies with international safety standards
- **Installation:** DIN rail mounting
- **Dimensions:** Compact to optimize space in the electrical panel
- **Operating temperature:** Suitable range for various environmental conditions
- **Service life:** Designed for long and reliable performance

Specifications

Curve	K
EAN	3606480504846
No. of poles	3P+N
Reference	SCHNEIDER A9L65601
Nominal voltage (V)	350
