

Product sheet

SCHNEIDER TA16 160A 400VAC 4-pole switch with LCD display.

Brand: SCHNEIDER

Reference: IMPO TA16D4L1604TPE

The TA16 Active Automatic 160A 400VAC 4P LCD is an electrical protection device designed for AC systems. It features an LCD screen for easy data viewing and a compact design for efficient installation.

Description

The TA16 Active Automatic 160A 400VAC 4P LCD is a high-efficiency circuit breaker designed to provide protection and control in medium- and high-voltage electrical systems. This device features an LCD screen that provides clear and accurate information about the system status, facilitating monitoring and diagnostics. Its compact and robust design allows for easy integration into electrical panels, ensuring optimal performance in various industrial and commercial applications. Thanks to its active technology, the TA16 is able to detect and react to overloads and short circuits, ensuring the safety and continuity of the power supply.

- **Rated current:** 160A
- **Rated voltage:** 400VAC
- **Poles:** 4P (four poles)
- **Protection type:** Overload and short circuit
- **Display:** LCD for data display
- **Dimensions:** Compact for easy installation
- **Operating temperature:** -25°C to +70°C
- **Certifications:** Complies with international standards
- **Applications:** Industrial and commercial systems
- **Installation:** Easy panel mounting electrics

Specifications

Frequency	50/60 Hz
Rated current (A)	160
EAN	3606481065865
No. of poles	4P

Reference	SCHNEIDER TA16D4L1604TPE
