

Product sheet

UNI. AVANZ 3-pole 3-12A 24V AC switch with IP protection and high durability.

Brand: SCHNEIDER

Reference: IMPO LUCB12B

The UNI. AVANZ C10 3P 3-12A 24V AC is a device designed for electrical applications. It offers a current range of 3 to 12 amps and operates at 24 volts AC, ensuring efficient and reliable performance.

Description

The UNI. AVANZ C10 3P 3-12A 24V AC is a device designed to offer precise and efficient control in low-voltage electrical applications. Its robust construction and advanced technology ensure optimal performance in industrial and commercial environments. This equipment is ideal for managing electrical loads, providing a reliable solution for the automation and control of electrical systems. Its compact design allows for easy installation and maintenance, while its adaptability to different configurations makes it a versatile option for various applications.

- **Device Type:** Charge Controller
- **Phase:** 3P (Three-phase)
- **Current Range:** 3-12A
- **Operating Voltage:** 24V AC
- **Dimensions:** Compact for easy installation
- **Construction Material:** High strength and durability
- **Applications:** Ideal for industrial and commercial environments
- **Compatibility:** Adaptable to various electrical configurations
- **Certifications:** Complies with electrical safety regulations
- **Ease of Maintenance:** Design that allows easy access to components internal

Specifications

Rated current (A)	12
EAN	3389110364156
No. of poles	3P
Reference	SCHNEIDER LUCB12B
Nominal voltage (V)	24V
