Product sheet

PowerTag UNIVERSAL 1P+N switch with connectivity and easy installation.

Brand: SCHNEIDER

Reference: IMPO A9MEM1560

The PowerTag Universal 1P+N is an electrical energy measurement and control device. Designed to facilitate energy consumption monitoring, it enables efficient and precise energy management in electrical installations, optimizing their performance and safety.

Description

The PowerTag Universal 1P+N is an energy measurement and control device designed to optimize electricity consumption in residential and industrial installations. This innovative product allows for real-time monitoring of energy consumption, facilitating efficient electricity management. Its compact design and advanced technology ensure easy integration into any electrical system, providing accurate and reliable data on energy usage. Thanks to its connectivity, the PowerTag Universal 1P+N can be easily integrated with energy management systems, enabling detailed analysis and the implementation of energy-saving strategies.

- **Device type:** Universal 1P+N energy meter
- **Measurement range:** Up to 63 A
- **Nominal voltage:** 230 V
- **Connectivity:** Compatible with energy management systems
- **Accuracy:** Class 1 according to IEC 62053-21
- **Communication:** Wireless communication protocol
- **Dimensions:** Compact, easy to install
- **Operating temperature:** -25 °C to +60 °C
- **Certifications:** Compliant with regulations international
- **Applications:** Residential and industrial

Specifications

EAN	3606481380395
No. of poles	1P+N
Reference	SCHNEIDER A9MEM1560
