Product sheet

SCHNEIDER PowerTag switch 1 pole + neutral, 16A, 230V, top connection.

Brand: SCHNEIDER

Reference: IMPO A9MEM1561

The PowerTag iDPN 1P+N Superior is an electrical energy measurement and control device. Designed to facilitate consumption monitoring, it offers easy installation and is compatible with energy management systems, optimizing electricity use.

Description

The PowerTag iDPN 1P+N is an energy measurement and control device designed to optimize energy performance in electrical installations. This innovative product enables real-time monitoring of electricity consumption, facilitating efficient energy management and contributing to reduced operating costs. Its compact design and easy integration into existing systems make it an ideal solution for residential and industrial applications. Equipped with advanced technology, the superior PowerTag iDPN 1P+N provides accurate and reliable data, enabling users to make informed decisions about their energy consumption.

- **Nominal Voltage:** 230 V
- **Nominal Current:** 63 A
- **Connectivity:** Communication via network protocol
- **Measurement:** Monitoring of active, reactive, and apparent energy
- **Accuracy:** Class 1 according to IEC 62053-21
- **Dimensions:** Compact, easy to install in electrical panels
- **Operating Temperature:** -25 °C to +60 °C
- **Protection:** IP20 protection rating
- **Compatibility:** Integration with Energy management systems
- **Certifications:** Complies with international safety and quality standards

Specifications

Rated current (A)	16
EAN	3606481380401
No. of poles	1P+N
Reference	SCHNEIDER A9MEM1561

Nominal voltage (V)	230V
