

Product sheet

UNI switch. AVANZ 3 poles 4.5-18A 24V DC for efficient control.

Brand: SCHNEIDER

Reference: IMPO LUCB18BL

The UNI. AVANZ C10 3P 4.5-18A 24V DC is an electrical device designed for direct current applications. It offers a current range of 4.5 to 18 amps, ensuring efficient and reliable performance in 24-volt systems.

Description

The UNI. AVANZ C10 3P 4.5-18A 24V DC is a power control device designed for industrial applications requiring efficient DC current handling. This model is characterized by its robustness and reliability, offering optimal performance in demanding environments. Its compact design allows for easy integration into electrical systems, while its current handling capacity makes it a versatile option for various applications. The technology used in its manufacture ensures a long service life and stable operation, even under variable load conditions.

- **Device Type:** Power Controller
- **Phase:** 3P (Three-phase)
- **Current Range:** 4.5-18A
- **Operating Voltage:** 24V DC
- **Dimensions:** Compact for easy installation
- **Construction Material:** High strength and durability
- **Operating Temperature:** Suitable for industrial environments
- **Protection:** Integrated safety circuits
- **Connectivity:** Easily accessible terminals
- **Applications:** Ideal for automation and control systems

Specifications

Rated current (A)	18
EAN	3389110364101
No. of poles	3P
Reference	SCHNEIDER LUCB18BL
Nominal voltage (V)	24V
