

Product sheet

SCHNEIDER NSX160 4-pole, 160A, 7.2E automatic circuit breaker, advanced protection.

Brand: SCHNEIDER

Reference: IMPO C1647E160

The Ud.Control NSX160 AC 4P4R 160A 7.2E is a high-quality circuit breaker designed to protect electrical circuits. It offers a 160-amp capacity and features four poles and four ranges, making it ideal for industrial and commercial applications.

Description

The Ud.Control NSX160 AC 4P4R 160A 7.2E is a control and protection device designed for industrial and commercial applications requiring efficient energy management. This unit is characterized by its robustness and reliability, offering a comprehensive solution for the protection of electrical circuits. Its compact design allows for easy integration into control panels, while its advanced technology ensures optimal performance under demanding conditions. This model features an automatic disconnect system that protects against overloads and short circuits, ensuring the safety of electrical installations.

- **Model:** NSX160 AC 4P4R
- **Rated current:** 160A
- **Pole configuration:** 4P (four poles)
- **Protection type:** Overload and short-circuit protection
- **Rated voltage:** 400V AC
- **Breaking capacity:** 25kA
- **Dimensions:** 250 x 120 x 160 mm
- **Weight:** 3.5 kg
- **Operating temperature:** -25°C to +70°C
- **Certifications:** IEC, UL, CE

Specifications

Frequency	50/60 Hz
Rated current (A)	160
EAN	3606481993908
No. of poles	4P
Reference	SCHNEIDER C1647E160
