

Product sheet

SCHNEIDER PowerTag 200A 3-pole + neutral switch, ideal for energy management.

Brand: SCHNEIDER

Reference: IMPO A9MEM1590

The PowerTag Rope up to 200A 3P/3P+N is an energy metering device designed for three-phase electrical systems. It allows for precise monitoring of energy consumption and facilitates energy management in industrial and commercial facilities, ensuring efficiency and safety.

Description

The PowerTag Rope up to 200A 3P/3P+N is an energy measurement and monitoring device designed for industrial and commercial applications. This innovative system enables real-time monitoring of electrical consumption, facilitating efficient energy management and contributing to the optimization of operating costs. Its compact and robust design ensures easy installation and seamless integration into any electrical environment. Thanks to its advanced technology, the PowerTag Rope provides accurate and reliable data, allowing users to make informed decisions about energy use.

- **Current Capacity:** Up to 200A
- **Phases:** 3P/3P+N
- **Connectivity:** Communication via network protocol
- **Real-time Monitoring:** Instantaneous data on energy consumption
- **Compatibility:** Integration with energy management systems
- **Installation:** Compact design for easy mounting
- **Accuracy:** High accuracy in energy measurement
- **Durability:** Robust construction for industrial environments
- **Interface:** Easy access to data through compatible applications
- **Safety:** Complies with electrical safety regulations

Specifications

Rated current (A)	200
EAN	3606481595287
No. of poles	3P
Reference	SCHNEIDER A9MEM1590
