

Product sheet

ALTISTAR 25A controller for 1 phase with high efficiency and easy installation.

Brand: SCHNEIDER

Reference: IMPO ATS01N125FT

The ALTISTAR 01 CONTROL 1 PHASE 25A is a device designed to manage load control in single-phase electrical systems. Its 25A capacity makes it suitable for various applications, ensuring efficient and safe operation in electrical installations.

Description

The ALTISTAR 01 CONTROL 1 PHASE 25A is a device designed for efficient energy management in single-phase electrical systems. This controller allows for precise load management, ensuring optimal performance and adequate protection for connected equipment. Its compact and robust design facilitates installation in various industrial and commercial applications, guaranteeing reliable operation in demanding environments. With a capacity of 25 amps, the ALTISTAR 01 is ideal for controlling motors, lighting, and other electrical devices, contributing to optimized energy consumption.

- **Device Type:** Single-phase controller
- **Rated Capacity:** 25A
- **Operating Voltage:** 230V AC
- **Frequency:** 50/60 Hz
- **Protection:** Overload and short circuit
- **Dimensions:** Compact for easy installation
- **Connectivity:** Easily accessible terminals
- **Operating Temperature:** -10°C to +50°C
- **Certifications:** Complies with international standards
- **Applications:** Motor control, lighting and electrical systems

Specifications

Rated current (A)	25
EAN	3389119200455
Reference	SCHNEIDER ATS01N125FT
