

## Product sheet

**VIGIPACT toroidal transformer  
type B 60VA, 230V, low noise  
and high efficiency.**

Brand: SCHNEIDER

Reference: IMPO LV481012

The VigiPacT TB60 Type B enclosed toroidal transformer is a device designed for the protection and control of electrical circuits. Its compact and efficient design allows for easy installation, ensuring optimal performance in a variety of industrial and commercial applications.

[View product online](#)**Description**

The VigiPacT TB60 Type B enclosed toroidal transformer is a device designed for the protection and control of electrical circuits in industrial and commercial applications. Its robust and compact structure allows for efficient installation, guaranteeing optimal performance in current monitoring. This device is ideal for environments where high reliability and accuracy are required in the measurement of electrical parameters.

The VigiPacT TB60 is characterized by its advanced technology that ensures a rapid response to current variations, contributing to the safety and stability of the electrical system.

Its enclosed design provides greater protection against external interference, making it a suitable choice for various applications.

- **Type:** Enclosed Toroidal Type B
- **Model:** VigiPacT TB60
- **Current Range:** 0-60 A
- **Rated Voltage:** 230/400 V
- **Frequency:** 50/60 Hz
- **Protection:** IP54
- **Material:** Impact-resistant plastic
- **Dimensions:** Compact for easy installation
- **Certifications:** Complies with international standards
- **Applications:** Industrial and commercial electrical systems

Specifications

|                     |                    |
|---------------------|--------------------|
| EAN                 | 3606489913021      |
| Reference           | SCHNEIDER LV481012 |
| Nominal voltage (V) | 230V               |
