

## Product sheet

## SCHNEIDER PowerTag switch up to 1000A 3 poles + neutral, compact and efficient.

Brand: SCHNEIDER

Reference: IMPO A9MEM1592

The PowerTag Rope up to 1000A 3P/3P+N is an energy measurement device designed for three-phase electrical systems. It allows for monitoring consumption and optimizing energy management, facilitating integration into industrial and commercial installations.

### Description

The PowerTag Rope up to 1000A 3P/3P+N is an energy measurement and monitoring device designed for industrial and commercial applications. This innovative system enables real-time monitoring of power quality, facilitating efficient energy consumption management. Its compact and robust design ensures easy installation and seamless integration into various electrical environments. Thanks to its ability to measure currents up to 1000A, the PowerTag Rope is ideal for installations requiring precise and reliable energy control.

- **Device Type:** Energy Meter
- **Current Capacity:** Up to 1000A
- **Phases:** 3P/3P+N
- **Connectivity:** Communication via standard protocol
- **Dimensions:** Compact for easy installation
- **Temperature Range:** Suitable for industrial environments
- **Accuracy:** High measurement accuracy
- **Applications:** Ideal for real-time energy monitoring
- **Compatibility:** Integration with energy management systems
- **Certifications:** Complies with international safety standards

### Specifications

|                   |                     |
|-------------------|---------------------|
| Rated current (A) | 1000                |
| EAN               | 3606481595300       |
| No. of poles      | 3P                  |
| Reference         | SCHNEIDER A9MEM1592 |
