**RUKO column drill with magnetic base and 1000W power, 230V.**

Brand: Ruko

Reference: TUR 108010A

The Ruko-108010A is a lightweight and easy-to-use pillar drill with a magnetic base. It offers a clamping force of 10,000 N, adjustable height, and automatic coolant supply. Ideal for precise and efficient drilling.

[View product online](#)**Description**

The Ruko-108010A Magnetic Base Column Drill A10 is a high-precision tool designed to meet the needs of professionals in the metalworking and construction sectors. This drill combines a powerful 1,100-watt motor with a magnetic pulling force of 10,000 N, ensuring a firm and secure hold on various metal surfaces. Its rotation speed of 700 rpm allows for efficient and precise drilling.

One of the most outstanding features of this drill is its ease of use. Thanks to the 50% reduction in magnetic force when the motor is switched off, readjustment is quick and easy. Furthermore, its height is adjustable via a dovetail guide, providing versatility for different applications.

Weighing only 10.5 kg, it is lightweight and easy to handle, ideal for extended work sessions. The Ruko-108010A also includes an automatic coolant supply, which helps keep the drill bit in optimal condition during use. This drill is compatible with twist drills up to Ø 13.0 mm, hollow drills from Ø 12.0 - 35.0 mm, and countersinks up to Ø 35.0 mm, with a cutting depth of 110.0 mm.

- Magnetic pulling force: 10,000 N
- Power consumption: 1,100 Watts
- Rotational speed: 700 rpm
- Weldon adapter: 19.0 mm (3/4")
- Weight: 10.5 kg
- Dimensions: 160.0 x 80.0 mm
- Adjustable height: 400.0 - 580.0 mm
- Drilling capacity: max. Ø 13.0 mm (twist drill bit)
- Voltage: 220 - 240 V

- Standards: VDE, EEC

The kit includes a carrying case, safety strap, three Allen wrenches and a cooling bottle, as well as an instruction manual for proper use.

Specifications

EAN	4007140371904
Weight (kg)	10,5000
Nominal voltage (V)	230V
