Description

The Ruko-116100L is a mini pneumatic straight grinder designed to deliver exceptional performance in precision work. With a total length of 196 mm and a weight of only 0.57 kg, this tool is ideal for applications where space is limited and agile handling is required. Its powerful rotary vane piston motor allows it to reach a rotation speed of up to 25,000 rpm, making it an effective choice for grinding, polishing, and cutting various materials. The Ruko-116100L's design includes a power regulator that allows you to adjust the speed according to the needs of the job, ensuring optimal control in every application. The non-slip rubber handle provides a comfortable and secure grip, minimizing fatigue during extended use. Additionally, it features an integrated air filter that protects the motor from dirt, extending its lifespan and ensuring consistent performance.

- **Rotational speed:** 25,000 rpm
- **Noise level:** 77 dBA
- **Hose size:** 3/8"
- **Air consumption:** 113 L/min
- **Air pressure:** 6.2 bar
- **Connector:** G 1/4"
- **Weight:** 0.57 Kg
- **Collet:** 6 mm
- **Seat:** Hardened steel
- **Air filter:** Integrated
