Description

The **Ruko-116130L-Mini Long Pneumatic Grinder** is a tool designed to deliver exceptional performance in precision work. Its powerful rotary vane piston motor allows it to reach a rotation speed of up to **25,000 rpm**, making it an ideal choice for tasks requiring a fine and detailed finish. Equipped with a power regulator, this model allows you to adjust the speed according to the specific needs of each project.

The ergonomic design includes a **non-slip rubber handle**, which provides a secure and comfortable grip during extended use. It also features an **integrated air filter** that protects the motor from dirt, ensuring greater durability and efficiency. Its hardened steel seat ensures extra robustness, ideal for demanding work environments. Weighing 0.90 kg and with a total length of 251 mm, this mini grinder is compact and easy to handle. Its **G 1/4"** connection and **3/8"** hose size make it compatible with most pneumatic systems.

- Rotation speed: 25,000 rpm
- Noise level: 77 dBA
- Hose size: 3/8"
- Air consumption: 113 L/min
- Air pressure: 6.2 bar
- Total length: 251 mm
- Connector: G 1/4"
- Weight: 0.90 Kg
- Milling collet: 6 mm
