Description

The Ruko-116120L is a mini pneumatic angle grinder designed to deliver exceptional performance for precision work. With a 115° angle, this tool is ideal for applications in confined spaces, allowing easy and comfortable access to difficult areas. Its powerful rotary vane piston motor provides a rotation speed of up to 20,000 rpm, guaranteeing efficient, high-quality results every time.

The ergonomic design includes a non-slip rubber handle that ensures a firm and comfortable grip, reducing fatigue during long work sessions. It also features a power regulator that allows you to adjust the speed according to the specific needs of each task. To extend the motor's lifespan, the grinder incorporates an integrated air filter that protects against the entry of dirt and particles.

Constructed with a hardened steel housing, the Ruko-116120L is robust and durable, ideal for demanding work environments.

Its light weight of 0.70 kg makes it easy to handle and transport.

- **Rotation speed:** 20,000 rpm
- **Noise level:** 77 dBA
- **Hose size:** 3/8"
- **Air consumption:** 113 L/min
- **Air pressure:** 6.2 bar
- **Total length:** 201 mm
- **Connector:** G 1/4"
- **Weight:** 0.70 Kg

- **Cutter clamp:** 6 mm
