Description

The Sola-NB adaptable leveling base is an essential accessory for handheld laser point levels, specifically designed for Sola's Lasertronic and Profiline models. Made with a Grivory® body, a high-strength plastic incorporating 30% fiberglass, this base ensures durability and stability under various working conditions. Its design includes a 5/8" thread that allows for easy mounting on tripods, ensuring quick and efficient installation. It also features three support points that provide firm and balanced support, facilitating accurate measurements.

- **Compatibility:** Adaptable to Sola Lasertronic and Profiline laser levels.
- **Material:** Grivory® body with 30% fiberglass.
- **Thread:** 5/8" for standard tripod.
- **Support Points:** Three contact points for greater stability.
- **Use:** Ideal for construction and surveying applications.
- **Dimensions:** Compact and lightweight for easy transport.
- **Durability:** High resistance to impacts and adverse conditions.
- **Installation:** Mounting Quick and easy on tripods.
- **Precision:** Improves accuracy in alignment and leveling.
- **Versatility:** Compatible with various surfaces and terrains.

Specifications

High	15,00
Width	15,50
EAN	9002719012986
Weight (kg)	0,4000
Depth	14,50
