Description

The Sola-FST compact tripod is the ideal solution for those seeking stability and versatility in their photo or video shoots. Made of high-quality aluminum, this tripod combines lightness and strength, allowing for easy transport and use in various situations. Its silver anodized surface not only gives it an elegant finish but also provides greater durability and corrosion resistance. Weighing only 1,280 g, it's perfect for photographers and videographers on the go.

The Sola-FST features an adjustable height range of 42 to 120 cm, allowing it to adapt to different framing and composition needs. Its folded size of 46 cm makes it easy to store and transport in backpacks or briefcases.

Furthermore, the 1/4" thread is compatible with a wide variety of cameras and devices, ensuring a secure hold. With a maximum load capacity of 5 kg, this tripod is suitable for most DSLR and system cameras.
