Easy-to-use LEICA dot laser level with 360° rotation and automatic adjustment

Brand: Leica Geosystems

Reference: TUR 864427

The Leica Lino P5 laser level is easy to use and self-adjusting, projecting five laser points in 360°. With a range of up to 30 m and an accuracy of ± 0.2 mm/m, it is ideal for leveling work.

Description

The Leica Lino P5 spot laser level is a measuring tool designed to facilitate work in a variety of construction and design applications. Its intuitive one-button operation allows for the precise projection of five reference points at right angles, simplifying alignment and leveling on the job site. With a range of up to 30 meters and a leveling accuracy of ± 0.2 mm/m, this device is ideal for tasks requiring both accuracy and speed.

The Lino P5 features a multi-function magnetic TWIST 360 adapter, enabling quick and versatile positioning on edges, profiles, and pipes, as well as providing a full 360° rotation. Its self-leveling capability ensures that the device automatically adjusts its position if it is slightly out of level, guaranteeing the correct transfer of angles and reference points to within $\pm 4^\circ$.

The laser dots flash if the tilt exceeds this limit, providing a visual alert for the user.

- **Range:** up to 30 m
- **Leveling accuracy:** ± 0.2 mm/m
- **Self-leveling range:** $\pm 4^\circ$
- **Number of laser dots:** 5
- **Beam direction:** up, down, forward, right, left
- **Laser type:** 635 nm/class 2
- **Battery type:** 3 x 1.5V AA
- **Operating time:** up to 37 h (AA)
- **Protection class:** IP 54
- **Dimensions:** 110 x 60 x 100 mm

- **Weight with batteries:** 495 g
- **Tripod thread:** 1/4"

The package includes the TWIST 360 magnetic adapter, a target plate, alkaline batteries, and a hard carrying case, making it a complete and ready-to-use option for any project.

Specifications

High	17,00
Width	38,00
EAN	7640110697566
Weight (kg)	3,7000
Depth	33,50
