

## Product sheet

**LEICA automatic optical level,  
24x magnification, 1.9 mm  
deviation, precise  
measurements.**

Brand: Leica Geosystems

Reference: TUR 840385-L

The Leica NA524 automatic optical level offers 24x magnification and a deviation of 1.9 mm, ensuring accurate measurements under various conditions. Its robust design and advanced technology make it a reliable tool for professionals in the construction industry.

[View product online](#)**Description**

The Leica NA524 automatic optical level is a measuring tool designed to meet the most demanding requirements of the construction industry. With 24x magnification and a deviation of only 1.9 mm, this device guarantees fast and accurate measurements, making it an indispensable tool on any construction site. Its distinctive design and proven technology ensure exceptional performance, even in the most adverse conditions.

Leica Geosystems, with its extensive experience in the sector, has developed the NA524 to deliver the highest quality results, adapting to all leveling needs. This optical level is ideal for professionals seeking reliability and precision in their measurements, backed by an outstanding warranty and the support of more than 270 service centers worldwide.

- Free target diameter: 36 mm
- Shortest sight distance from axis:
