Product sheet

LEICA automatic optical level, 32x magnification, 1.6 mm deviation, precise measurements.

Brand: Leica Geosystems

Reference: TUR 840386-L

The Leica NA532 automatic optical level offers 32x magnification and a deviation of 1.6 mm, ensuring accurate measurements under various conditions. Its robust design and advanced technology make it a reliable tool for professionals in the construction industry.

Description

The Leica NA532 automatic optical level from Leica Geosystems is a measuring tool designed to deliver precise and reliable results under the most demanding construction site conditions. With 32x magnification and a deviation of only 1.6 mm, this optical level becomes an indispensable tool for construction professionals. Its distinctive design and proven technology guarantee exceptional performance, enabling fast and accurate measurements every time.

Leica Geosystems, with its extensive experience in the sector, has developed the NA532 to meet all leveling needs, ensuring that every project is executed to the highest quality standards.

This optical level is ideal for complex construction projects and adverse conditions, backed by a network of over 270 service centers worldwide.

- **Free target diameter:** 36 mm
- **Shortest sighting distance:**

Specifications

EAN	7640110696033
Weight (kg)	1,5000
