hh 1" check valve

Brand: VERHAL

Reference: EDM 01392

The HH 1" check valve is an essential component for plumbing systems, designed to prevent backflow. With a pressure rating of 16 bar, this valve is reinforced for durability. Its brass seat and stainless steel spring ensure efficient and robust operation. Ideal for applications requiring reliable and safe fluid handling.

Description

The **hh 1" Check Valve** is an essential component for piping systems requiring effective fluid flow control. Designed to withstand a nominal pressure of **16 bar**, this non-return valve is reinforced to ensure superior durability and strength in demanding applications. Its **brass seat** provides excellent sealing, while the **stainless steel spring** ensures reliable and long-lasting operation, preventing backflow of fluid into the system.

- **Size:** 1"
- **Type:** hh Check Valve
- **Nominal Pressure:** 16 bar
- **Seat Material:** Brass
- **Spring Material:** Stainless Steel
- **Features:** Reinforced
- **Applications:** Industrial plumbing and fluid systems
- **Installation:** Horizontal and vertical
- **Operating temperature:** Suitable for various conditions
- **Maintenance:** Low, thanks to its robust design

This valve is ideal for those looking for a reliable, high-quality product for flow control in their facilities.

Specifications

EAN	8436048516821
Material	Asiento de latón / muelle acero inox
Measures	1"
Thread	1"
