Description

The bottom inlet float is an essential component for plumbing systems requiring efficient water level control. Designed for optimal performance, this float features a 3/8-inch brass connection, ensuring a secure and durable installation. Its ability to operate under water pressures ranging from 0.10 to 10 bar makes it a versatile choice for various applications. Furthermore, its quiet and fast design ensures discreet operation, ideal for environments where noise may be a concern.

- **Presentation:**Blister
- **Type:**Float
- **Shape Type:**Bottom Inlet
- **Connection:**3/8" Brass
- **Applicable Water Pressure:**0.10 - 10 bar
- **Operation:**Quiet and Fast
- **Material:**Brass
- **Use:**Plumbing Systems
- **Installation:**Easy and Safe
- **Durability:**High Strength
