Side entry float

Brand: VERHAL

Reference: EDM 01643

Side-entry float with 3/8" brass connection. Designed to operate with water pressures from 0.10 to 10 bar, this float is quiet and fast, ensuring efficient operation. Packaged in blister packs, it is ideal for various water system applications. Its brass construction ensures durability and strength, making it a reliable choice for water level control.

Description

The side-entry float is an essential component for water supply systems, designed for efficient and quiet performance. Its 3/8-inch brass connection ensures a robust and durable installation, suitable for a wide range of applications. This float operates under water pressures ranging from 0.10 to 10 bar, making it versatile and adaptable to different operating conditions. Its optimized design allows for quick and efficient filling, minimizing noise during operation, making it an ideal choice for environments where discreet operation is required.

- **Presentation:**Blister
- **Type:**Float
- **Shape Type:**Side Inlet
- **Connection:**3/8" Brass
- **Applicable Water Pressure:**0.10 - 10 bar
- **Operation:**Silent and Fast
- **Material:**Brass
- **Use:**Water Supply Systems
- **Installation:**Simple and Direct
- **Durability:**High Corrosion Resistance
