Description

The compact 2-in-1 Float is a versatile and efficient solution for water level control in plumbing systems. Designed for easy installation, this float is compatible with both bottom and side mounting, making it an ideal choice for a variety of applications. Its 3/8-inch POM connection ensures quick and easy integration into your existing system. This float operates within a water pressure range of 0.10 to 10 bar, guaranteeing optimal performance under varying conditions. Furthermore, its quiet design allows for discreet operation, preventing disruptive noise in the surrounding environment. The product comes in an individual bag with a hanger, making it easy to store and display.

- **Type:**Float
