Description

The AF711201 weekly digital timer is the ideal solution for automating your outdoor electrical devices. With a maximum capacity of 3600 W and 16 A, this device operates at 230 V and 50 Hz, ensuring efficient and safe performance. Designed to withstand splashes and adverse weather conditions, it has an IP44 protection rating, making it perfect for use in gardens, patios, and other outdoor areas. Its intuitive interface includes a digital display and easy-to-use buttons, allowing for quick and simple programming.

The AF711201 allows you to set up to 10 daily on/off programs, with 1-minute intervals, providing flexibility and control over the operation of your devices.

It also includes useful features such as daylight saving time and occupancy simulation, as well as the option to display the time in 12- or 24-hour format.

- **Model:**AF711201
- **Type:**Digital programmer
- **Protection rating:**IP44
- **Maximum capacity:**3600 W
- **Maximum current:**16 A
- **Voltage:**230 V ~ 50 Hz
- **Programming:**Weekly
- **Daily programs:**Up to 10 on/off cycles
- **Intervals:**1 minute
- **Additional features:**Daylight saving time, occupancy simulation
