Product sheet

Cut master guide 90°

Brand: RUBI

Reference: EDM 16837

The Rubi Cut Master Guide 90° is designed to improve stability and comfort while cutting. It optimizes cut quality and disc performance, and features a 35 mm dust extraction port to remove dust from the work area. Its silicone seal prevents dust leakage. Compatible with 115 mm and 125 mm angle grinders, it allows use without removing the original disc guard and facilitates straight, clean cuts.

Description

The Rubi Cut Master Guide 90° is an innovative tool designed to optimize stability and comfort during the cutting process. This accessory significantly improves cut quality and disc performance, thanks to its ingenious design that includes a 35 mm vacuum connection, allowing for complete dust removal from the work area. Furthermore, its silicone seal ensures no dust leakage, keeping the area clean and safe.

Compatible with all 115 mm and 125 mm angle grinder models, the Cut Master Guide does not require removal of the original disc guard, making it easy to use.

The integrated 30 mm diameter wheels allow for easier straight-line guidance of the disc, supporting the weight of the angle grinder during cutting and preventing marks on the tile.

- Type: Cut Master Guide 90°
- Application: Increases stability and comfort during cutting
- Vacuum connection: 35 mm diameter
- Compatibility: 115 mm and 125 mm diameter angle grinders
- Silicone seal to prevent dust leakage
- 30 mm diameter wheels for easy guidance
- No need to remove the original disc guard
- Improves cut quality
- Reduces dust in the work area
- Ergonomic design for greater comfort
