Description

The flexible mechanical finger is a tool designed to facilitate the manipulation of objects in confined or hard-to-reach spaces. Measuring 60 cm in length, this device features an ergonomic design that allows for a precise and secure grip. Made of stainless steel, it guarantees durability and corrosion resistance, making it an ideal choice for various industrial and maintenance applications. Its flexibility allows it to adapt to different angles and positions, while the four claws provide a firm and versatile grip, ideal for picking up small or fragile objects without risk of damage.

- **Material:**Stainless steel
- **Length:**60 cm
- **Type:**Mechanical finger gripper
- **Features:**Flexible
- **Claws:**4 claws for a secure grip
- **Applications:**Ideal for working in confined spaces
- **Resistance:**High corrosion resistance
- **Use:**Perfect for picking up small and fragile objects
- **Design:**Ergonomic design for easy handling
- **Versatility:**Suitable for various industries and maintenance tasks

Specifications

EAN	6914280018157
Measures	60 cm
