Description

The 5-piece stud extractor set is designed to easily remove screws and bolts with damaged heads. Made from GCR15 steel, these extractors offer high strength and durability, making them an essential tool for any workshop or toolbox. Each extractor is precision-engineered to ensure an effective grip, allowing for quick and easy removal. This set includes five different sizes (1, 2, 3, 4, and 5 mm), providing versatility to suit various applications and needs. The polypropylene (PP) case ensures tidy and secure storage, protecting the tools from damage and facilitating transport.
