Description

The 32-piece metric tap and die set is an essential tool for professional internal and external thread repair. Made of heat-treated steel, this set ensures durability and strength, allowing for extended use in various applications. Its design includes a metal case that facilitates storage and organization of the pieces, ensuring they are always readily available when needed.

This set includes a variety of taps and dies, making it a versatile solution for different thread sizes. With a screwdriver and handles specifically designed for taps and dies, the user can perform repairs with precision and ease.

Additionally, the included thread gauge set allows you to verify thread dimensions, ensuring a perfect fit.
