Description

The 12mm wood chisel is an essential tool for any carpenter or DIY enthusiast seeking precision and durability in their work. Made with a forged and heat-treated chrome-vanadium steel blade, this chisel guarantees excellent edge retention, allowing for clean and precise cuts in various types of wood. Its cutting edge, 30% longer and sharper than other chisels, facilitates roughing and finishing surfaces, optimizing working time.

The chisel's design includes a steel stop, ideal for withstanding heavy blows from a hammer or mallet, making it a robust and reliable tool.

In addition, its high-strength handle features an ergonomic grip that provides comfort and control during use, reducing fatigue during prolonged tasks.
