Product sheet

Pruning saw, 7 tpi, 325 mm

Brand: WORKPRO

Reference: EDM 21667

The 325mm pruning saw is ideal for cutting large branches up to 18cm in diameter. Its ergonomic pistol-grip handle provides a comfortable hold, while the 65Mn steel blade with 7 TPI and induction-hardened teeth allows for efficient cutting at various angles. Designed for easy pruning, this tool combines durability and performance with every use. Perfect for gardeners and plant enthusiasts.

Description

The 325 mm pruning saw is a tool designed to facilitate the pruning of large branches, up to 18 cm in diameter. Its blade, made of 65Mn steel, features a 7 teeth per inch (tpi) design that allows for efficient and precise cutting. The saw teeth are induction-hardened and have a triple edge, which optimizes performance by cutting more material at greater angles per pass. The ergonomic pistol-grip handle provides a comfortable and secure grip, while the finger hook adds stability during use, reducing fatigue during prolonged tasks.

- **Material:**Carbon steel
- **Handle:**Ergonomic pistol-grip
- **Application:**Pruning large branches up to ø18 cm
- **Features:**Razor teeth, 7 TPI
- **Type:**Pruning saw
- **Blade:**65Mn steel
- **Size:**325 mm

Specifications

EAN	6914280025582
Material	Acero al carbono
Measures	325 mm
