Filter 755-756 a2

Brand: CLIMAX

Reference: EDM 26017

The 755-756 a2 filter is designed to protect against gases and vapors from chemical compounds. Its cylindrical structure, made of black ABS, fits perfectly on masks 755, 756, and 810. It complies with EN 14387:2004 + A1:2008 and EN 143:2021 standards, guaranteeing optimal performance in industrial environments. This filter is essential for ensuring workplace safety and health by providing an effective barrier against contaminants.

Description

The 755-756 A2 Filter is a device designed for protection against gases and vapors from chemical compounds. Its cylindrical structure is made of black ABS, ensuring high resistance and durability. This filter securely attaches to the 755, 756, and 810 masks, providing an effective solution for work environments where respiratory protection is required. Complies with EN 14387:2004 + A1:2008 and EN 143:2021 standards, ensuring its effectiveness and reliability in filtering airborne contaminants.

- **Type:** Threaded filters
- **Compatible with:** Mask 755/756 and 810
- **Standards:** EN 14387:2004 + A1:2008, EN 143:2021
- **Material:** High-strength ABS
- **Color:** Black
- **Design:** Cylindrical body
- **Use:** Protection against chemical gases and vapors
- **Applications:** Industrial environments and work-related
- **Ease of installation:** Secure attachment to compatible masks
- **Durability:** High resistance to adverse conditions
