Filter 755-756 a2p3

Brand: CLIMAX

Reference: EDM 26020

The 755-756 a2p3 filter is designed to protect against gases and vapors from chemical compounds. Its cylindrical structure is made of black ABS, ensuring a perfect fit with its matching ABS cap. It complies with EN 14387:2004 + A1:2008, guaranteeing its effectiveness and safety in industrial environments. This filter is ideal for applications requiring reliable, high-quality protection.

Description

The 755-756 a2p3 filter is a device specifically designed for protection against gases and vapors from chemical compounds. Its structure consists of a cylindrical body made of black ABS, ensuring high resistance and durability. This filter is complemented by a cap made of the same material, guaranteeing a perfect fit and optimal performance. It complies with EN 14387:2004 + A1:2008, certifying its quality and reliability in industrial and work environments where exposure to chemical substances is a risk. Its design allows for easy installation and efficient use, and it is compatible with filtration systems that require threaded filters.

- **Type:** Threaded filters
- **Standard:** EN 14387:2004 + A1:2008
- **Material:** High-strength ABS
- **Color:** Black
- **Design:** Cylindrical body with adjustable cap
- **Application:** Protection against chemical gases and vapors
- **Compatibility:** Standard filtration systems
- **Durability:** High resistance to adverse conditions
- **Installation:** Quick and easy
- **Use:** Industrial and work environments
