Multi-angle knife sharpener

Brand: ARCOS

Reference: EDM 29071

This multi-angle knife sharpener allows you to adjust the sharpening angle to 20°, 25°, 30°, and 35°, adapting to different types of knives. It features two functions: coarse, for restoring the edge with tungsten carbide, and fine, for a durable finish with ceramic and diamond in resin. Its ergonomic design includes an angle adjustment wheel and a non-slip silicone base. Compatible with metal-bladed knives, it comes with a recycled storage bag.

Description

The **multi-angle knife sharpener** is an essential tool for maintaining the edge of your metal-bladed knives in optimal condition. Designed for versatility, it allows you to select from four sharpening angles: 20°, 25°, 30°, and 35°, adapting to different types of knives. This sharpener has two functions: the first, **coarse**, uses tungsten carbide to restore a worn edge, while the second, **fine**, employs ceramic and diamond in resin for a fine and durable finish. Its ergonomic adjustment wheel allows you to select the desired angle with one hand, making it easy to use.

The non-slip silicone base provides greater safety and stability during the sharpening process, preventing accidental slippage. Its comfortable and ergonomic design has been conceived to offer a simple and efficient user experience.

It also includes a recycled paper bag with a zipper closure, ideal for storage and transport.

- Sharpening Types: Multi-angle 20°/25°/30°/35°
- Functions: Coarse (tungsten carbide) and Fine (ceramic/diamond in resin)
- Ergonomic adjustment wheel for angle selection
- Non-slip silicone base for added safety
- Ergonomic and comfortable design
- Compatible with metal blade knives (not suitable for ceramic)
- Includes recycled paper bag with zipper closure
