Description

The 4-meter RGB Wi-Fi LED Strip is a smart lighting solution that combines functionality and style. With a voltage of 24V and a power of 5.3W, this LED strip offers a wide range of RGB colors, allowing you to personalize any space to your preferences. Its adhesive design facilitates installation on various surfaces, while its ability to be cut to different lengths allows you to adapt it. The strip is controlled via a mobile app and is also compatible with voice commands, providing an intuitive and modern user experience.

One of the most outstanding features of this LED strip is its Spacesense technology, which allows the lights to turn on and off automatically when motion is detected, improving energy efficiency and convenience. Furthermore, synchronization with music adds a dynamic touch to your events and gatherings.

With an estimated lifespan of 15,000 hours, this LED strip is a durable and reliable choice for any home or workspace.

- **Type:** RGB LED Strip
