Product sheet

UV torchy flashlight - ultraviolet light

Brand: NEBO

Reference: EDM 36823

The Torchy UV flashlight offers both ultraviolet and black light, ideal for detecting, inspecting, and authenticating items in residential and commercial environments. Its dual UV-A technology (2 x 395nm + 1 x 365nm LED) provides effective illumination for tasks such as pet urine detection and leak inspection. Compact and constructed from water- and shock-resistant aluminum, it operates on three AAA batteries (included) and features two light modes.

Description

The Torchy UV flashlight is an essential tool for those seeking to see the invisible. Equipped with dual ultraviolet (UV-A) light technology, this device is designed to offer superior detection, inspection, and authentication in a variety of residential and commercial applications. With broad-spectrum wavelengths, the Torchy UV combines illumination and fluorescence, making it ideal for short-range tasks such as detecting pet urine, inspecting UV dyes for leaks in automobiles, identifying pests like scorpions, as well as cleaning inspections and currency authentication. Its compact and portable design allows it to be easily carried in a pocket, while its durable aluminum housing ensures shock and water resistance, with an IPX4 rating. The flashlight operates on three AAA batteries (included) and offers two light modes (high and low) to suit different lighting needs.

- **Model:**Torchy UV
- **Type:**Handheld flashlight
- **Light type:**Ultraviolet
- **Material:**Aluminum housing
- **Features:**Compact and pocket-sized
- **Durability:**Shockproof and waterproof
- **Battery:**3 x AAA alkaline batteries (included)
- **Light modes:**2 modes (high/low)
- **IP rating:**IPX4

Specifications

Colour	Black
EAN	5060945231384

Material	Carcasa de aluminio
