

Product sheet

**"a" model plug 10a 250v c26
(bulk)**

Brand: BASICS

Reference: EDM 40998

Model "A" 10A 250V C26 plug (bulk) made of white polypropylene. Designed to fit European and universal electrical systems, this plug supports a voltage of 250V and a current of 10A. Measuring 4 mm in size, it is ideal for various electrical applications. Its robust construction ensures durability and safety in everyday use. Perfect for those seeking practical and efficient electrical connectivity solutions.

[View product online](#)**Description**

The "a" model 10A 250V C26 plug is a high-quality adapter designed to meet electrical connection needs in European and universal environments. Made of polypropylene, this component stands out for its durability and resistance, making it an ideal choice for both domestic and industrial use. Its white design blends easily into any environment, offering a clean and modern aesthetic. With a voltage rating of 250V and a current rating of 10A, this plug guarantees safe and efficient performance in various electrical applications.

- **Material:**Polypropylene
- **Color:**White
- **Voltage:**250V
- **Size:**4 mm
- **Type:**Adapter
- **Current:**10A
- **Model:**European/Universal

This product is offered in bulk, allowing for greater flexibility in acquisition according to specific customer needs. The "a" model plug is a reliable solution for those seeking an adapter that combines functionality and quality in a single product.

Specifications

Rated current (A)	10
Colour	White
EAN	8429760411130
Material	Polypropylene

Measures	4 mm
Nominal voltage (V)	250V
