804 Solera primer holder

Brand: SOLERA

Reference: EDM 44305

The Solera 804 starter holder is an accessory designed for indoor use, made of white thermoplastic. Compatible with GU10 sockets, it supports a current of 2 A and a voltage of 250 V. This starter holder is ideal for electrical installations requiring a reliable and durable component. Its functional design adapts to various lighting needs, ensuring optimal performance in its application.

Description

The Solera 804 starter holder is an essential component for installing indoor lighting systems. Designed for optimal performance, this starter holder fits GU10 sockets and is ideal for applications requiring a secure and efficient connection. Made of high-quality thermoplastic, it guarantees durability and wear resistance, making it a reliable choice for any lighting project. Its white design allows for aesthetic integration into diverse environments, maintaining a clean and modern look.

- **Color:**White
- **Type:**Starter Bulb Holder
- **Socket:**GU10
- **Current:**2 A
- **Voltage:**250 V
- **Material:**Thermoplastic
- **Application:**Indoor

This starter bulb holder is a practical and efficient solution for those looking to optimize their lighting systems, ensuring safe and long-lasting operation.

Specifications

Colour	White
EAN	8425998443059
Material	Termoplástico
