Free-flow propane gas regulator with non-return valve

Brand: IGT

Reference: EDM 74178

Free-flow propane gas regulator with a non-return valve, designed to ensure safe and efficient flow. It features a 3/8" i thread, facilitating installation on propane systems. Its built-in non-return valve provides added safety by preventing gas backflow. Ideal for applications requiring precise control of propane gas supply. Compatible exclusively with propane systems.

Description

The free-flow propane gas regulator with non-return valve is an essential component for gas systems that require precise and safe control of propane flow. Designed with a 3/8" male thread and a built-in non-return valve, this regulator ensures efficient and safe operation, preventing gas backflow and ensuring system integrity. Its robust and functional design makes it ideal for residential and industrial applications where propane is used as the energy source.

- **Type:**Free-flow gas regulator
- **Features:**Built-in non-return valve
- **Compatibility:**Propane
- **Thread:**3/8" male
- **Applications:**Residential and industrial
- **Material:**Robust construction for durability
- **Installation:**Easy to install on existing gas systems
- **Safety:**Prevents gas backflow
- **Performance:**Precise gas flow control
- **Maintenance:**Low maintenance required
