Description

The Flex flexible handle for the Gardena CleanSystem is an essential tool for cleaning hard-to-reach areas. Measuring 53 cm in length, this handle is designed to facilitate cleaning in hidden places, such as campervan roofs or greenhouses. Its articulated elbow allows for fine 45° adjustment on each side, providing greater versatility and precision when reaching tight corners. This accessory is compatible with the CleanSystem, making it a practical and functional addition for those looking to keep their spaces clean and tidy.
